

## THE NEW 50 MM / 2" D-RING COBRA® PRO STYLE 18 kN

*THE BIGGER, THE BETTER*

Finally here! The new D-RING COBRA® PRO STYLE 18 kN version for 50 mm / 2" webbing opens up a whole new world of opportunities. With 30% more space in the D-RING\*, you'll have 30% more room for everything you need. Check it out!

### WHAT ABOUT THE D-RING COBRA® PRO STYLE 18 kN

The D-RING COBRA® PRO STYLE 18 kN is a synergistic hybrid of two standard safety hardware components: the stainless-steel D-ring and the COBRA® PRO STYLE 18 kN – a buckle which meets the highest safety requirements. Its unique design prevents the D-ring from getting squeezed against the webbing and guarantees easy handling.

The COBRA® PRO STYLE 18 kN is thicker and even stronger than the COBRA® PRO STYLE and complies with the ANSI Z359.12-2019 standard with a minimum tensile strength of 15 kN for the buckle and 22 kN for the D-ring. However, we guarantee 18 kN for the buckle (straight pull) and point this out in the technical specifications accordingly.

### NEW WIDTH & PLENTY OF ROOM FOR YOUR GEAR

**NEW!**  
**30 % MORE SPACE\***

The new version of the D-RING COBRA® PRO STYLE 18 kN is intended

- + for 50 mm / 2" webbing,
- + offers **30% more space in the D-Ring\***,
- + provides **plenty of room** for all those tough jobs that require a little extra gear.

\*compared to the 45 mm / 1.75" D-RING COBRA® PRO STYLE 18 kN

### ORDER YOUR D-RING COBRA® PRO STYLE 18 kN NOW

The D-RING COBRA® PRO STYLE 18 kN is available lasered or embossed, in different clip sizes, and coating options. **On request, an order within the minimum order quantities is now possible.**

**Sample image:** FX50KVD

This version of the D-RING COBRA® PRO STYLE 18 kN is intended for 50 mm webbing width. The ergonomically designed brass clips of standard size support an ideal opening of the buckle. Thanks to the adjuster bar on the male part of the buckle, the webbing length can be adjusted. The stainless steel D-Ring is integrated in the female part of the buckle.
