## HMS RONDO 3-WAY+ AUTOLOCK SAFELOCK WITH IMPROVED HANDLING OF THE LOCKING FUNCTIONS

The **HMS RONDO** has a **3-WAY PLUS AUTOLOCK** mechanism. It belongs to the group of safelock carabiners, which feature the highest locking safety. In the locked position, it works like a regular 3-way autolock carabiner. To open the carabiner, you simply lift, twist and push. The PLUS function adds a fully locked position that makes unintentional opening virtually impossible. The new, revised version offers improved handling of the locking functions.

Our **HMS RONDO** combines simple handling with utmost safety. Its design prevents the buildup of sharp edges from rope friction. The round profile allows for fluid rope management, making the HMS the ideal carabiner for all-round use.
