

COBRA® PRO STYLE SNAKEBITE. LOCKS YOUR WEBBING.

The new COBRA® PRO STYLE SNAKEBITE safety buckle features our proven COBRA® PRO STYLE locking mechanism. It comes with an additional clamp that locks the adjustable belt strap in the desired position and prevents possible "creeping" of the webbing.

ADDITIONAL WEARING COMFORT AND SAFETY

The COBRA® PRO STYLE SNAKEBITE is equipped with a serrated clamp (pic. 1). When folded down, the clamp and its teeth lock the webbing and prevent the strap from loosening, even under movement (pic. 2). Once the buckle and clamp are engaged, you can still pull the strap tighter, making the belt system extremely comfortable and safe.

PIC 1: Open. The COBRA® PRO STYLE SNAKEBITE shows its teeth, webbing is individually adjustable.

PIC 2: Closed. The COBRA® PRO STYLE SNAKEBITE locks the webbing in the desired position.

FURTHER IMPORTANT FACTS

The COBRA® PRO STYLE SNAKEBITE clamp

- is currently available for belt straps 33 to 58 mm width with standard webbing thicknesses.
- meets the highest safety requirements thanks to its patented COBRA® PRO STYLE locking mechanism.
- is manufactured from high-strength polymer in an injection molding process.
- its special design makes it extremely robust and resilient.

ORDER YOUR COBRA® PRO STYLE SNAKEBITE NOW

Within the COBRA® PRO STYLE segment, the COBRA® PRO STYLE SNAKEBITE is available for belt straps 33 to 58 mm width with standard webbing thicknesses and in different clip sizes and coating options. **On request, an order within the minimum order quantities is now possible.**

This article is currently available for sample delivery.

This version of the COBRA® PRO STYLE SNAKEBITE is intended for 45 mm webbing width. The ergonomically designed brass clips of standard size support an ideal opening of the buckle. Thanks to the adjuster bar on the male part of the buckle, the webbing length can be adjusted. On the non-adjustable female part, the webbing needs to be sewn in.
