

AUSTRIALPIN PRICE LIST 2023

Dear business partners,

recent price developments are affecting the entire society. Inflation has reached a historical high.

Rising energy prices, freight and labor costs are also impacting our business. In addition, the tense situation on the raw material markets is continuing. As a result, delays in the supply chain can only be compensated by proactive scheduling and planning.

These extraordinary cost drivers are forcing us to adjust our **prices by an average plus 7% for 2023**. For details, please refer to the **AUSTRIALPIN Price Lists in the attachment**.

CURRENT PRICES STILL VALID

You still have the **opportunity to purchase at 2022 prices** under the following conditions:

- Orders of **in-stock items** placed before **December 20, 2022**.
- Orders of **non-stock items** as long as we are able to still deliver in 2022.

Thank you for your understanding and for your cooperation during these challenging times. We all hope this crisis will pass soon and look forward to continuing our successful business relationship.

Best regards,
The AUSTRIALPIN-Team
