2019 – a year full of innovations

An exciting year comes to an end. A year in which AUSTRIALPIN successfully extended its in-house coating method HPC to the COBRA® PRO STYLE. A year in which three different types of COBRA Quick Release Buckles were certified according to the new European Norm EN 358:2018-11 and a year in which we presented the fastest autolock carabiner in the world, the HMS RONDO with slide autolock.

However, despite all this news there is one thing that won't change in the future: AUSTRIALPIN's mindset to produce solely in Europe. Nearly 95% of AUSTRIALPIN's revenues come from the own production in Fulpmes, Austria! The reasons for this are pretty simple – yet, the impact on society and our environment is progressive:

#1: An eco-friendly production

Short delivery routes, high standards when it comes to environmental and consumer protection as well as a production with mostly renewable energies – all this are advantages for you as dealers and producers, for the consumer and for our environment. AUSTRIALPIN wants to protect the planet, so it is still worth living for all future generations.

#2: People and community are important to us

A production in Europe also means for AUSTRIALPIN to maintain good partnerships, to support local trade, to create jobs and to compensate employees fair. Because responsible and sustainable action doesn't stop when it comes to the people – it begins with it!

#3 Highest quality of the products

At AUSTRIALPIN, research and development go hand in hand with a production in Austria with the highest quality standards. This way it is possible to produce products, which meet all requirements regarding safety and quality.

NEW PRICE LIST FOR 2020

Attached you will find the new component price list for 2020. It is valid from January 1, 2020. Orders until December 20, 2019 and with a planned prompt delivery will be calculated with the current prices.

Good news first: AUSTRIALPIN managed to leave nearly 40% of all prices unchanged! Furthermore, AUSTRIALPIN guarantees the new prices of all metal components for two years. A price increase for all metal components is excluded during this time period.

In spite every effort, this time prices had to be adapted due to inflation or product-specific price increases. However, with 1-3% for half of all components, this increase is rather minor. Thank you for your understanding!

If you have any questions, please send us an e-mail to office@austrialpin.at. We will take care of your concern as quickly as possible.

THE AUSTRIALPIN WORKBOOK 2020/21

The latest workbook with all AUSTRIALPIN components can be downloaded [here](#). You can also order your personal workbook for free. Just send us an e-mail to office@austrialpin.at.

The new Data Protection Law of the European Union (GDPR) sets new standards for the transparency and responsibility of companies which work with and process personally provided data. We are taking this opportunity to inform you about the protection of your personal data, as well as about the rights you have as regards receiving this newsletter.

The protection of your data is a matter of great importance to us. Thus, it goes without saying that the personal data which you provide us in the course of sending you this newsletter is not supplied to any third party. You can at any time make use of your right to correct (update) the data, obtain information regarding the data or delete the data. Simply send us an email with your specific request to datenschutz@austrialpin.at.

In what context, and to what extent, and for what purpose we and our business associates process the data obtained from you can be read in our [Data Protection Declaration](#).

with best regards
your AUSTRIALPIN team
